

## **SMALL ORDERS** & *Fast Track*

I have always offered a genuine No Minimum Order policy on the vast majority of my items.

For various reasons I cannot hold stocks of clothing, so I buy-to-order.

My suppliers charge for shipping so, to mitigate those costs and keep my prices competitive, it is necessary for me to build up a list before I make a purchase from them. This means that, although I am happy to supply one-offs, it sometimes results in customers having to wait a little while for their orders.

Usually, the wait is not that long, (*but see my Terms and Conditions for delivery times*) but during quiet periods, there may be a bit of a delay.

It's not a perfect situation but it does mean that you can have your once-only single items - a service which most of my competitors are not prepared to provide.

**HOWEVER**, if want me to *Fast-Track* your order, then do please get in touch.

The fee for *Fast-Tracking* orders is currently £10.
